PPG, Vision Systems to Develop Aircraft Window Shading Applications

Friday May 19 | [Read more: Business Wire](#)

[< Prev Story](#)[Next Story >](#)

PPG and Vision Systems have reached a commercial agreement to work together on developing new applications utilizing Vision Systems' electronically dimmable window shading product for aircraft. At a display of the product are Nicolas Laurent, left, Vision Systems Aeronautics sales director, and Brent Wright, PPG global business director for aerospace transparencies.
